INDEPENDENT AUDITOR'S REPORT

To the Members of Hathras Highways Private Limited

Report on the Audit of the Financial Statements

Opinion

We have audited the Ind AS Financial Statements of Hathras Highways Private Limited (the "company"), which comprises of Balance Sheet as at 31st March 2025, and the statement of Profit and Loss including statement of Other Comprehensive Income, and statement of cash flows and Statement of changes in Equity for the year then ended, and summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Financial Statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2025, and the statement of Profit and Loss including Statement of Other Comprehensive Income, and Statement of Cash Flows and Statement of Changes in Equity for the year then ended, and summary of significant accounting policies and other explanatory information.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibility for The Audit of Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the Financial Statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the financial statements.

Responsibility of Management for Financial Statements

The company's Board of Directors is responsible for the matters stated in section of 134(5) of the Companies' Act, 2013 with respect to the preparation of these Financial Statements that gives a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies;

Head Office : 177, Block-R, LGF, Greater Kailash-1, New Delhi-110048

Our Branches :

Overseas:- Vancouver (Canada)

making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to preparation and presentation of the financial statement that gives a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Financial Statements, management is responsible for assessing the company's ability to continue as going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or cease operations, or has no realistic alternative but to do so.

Board of Directors are also responsible for overseeing the company's financial reporting process.

Auditor's Responsibilities for Audit of Financial Statements

Our objectives are to obtain reasonable assurance about whether the Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Financial Statements.

As part of an audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Companies Act, 2013, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained

up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the Financial Statements, including the disclosures, and whether the Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.
- We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
- We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by the companies (auditor's report) rules, 2020 ("the order") issued by the central Government of India in terms of the sub section (11) of the section 143 of the act, we give in **Annexure 1**, a statement on the matters specified in paragraph 3 and 4 of the order.
2. As required by Section 143(3) of the Act, we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c) The Balance Sheet and the statement of Profit and Loss including statement of Other Comprehensive Income, and statement of cash flows and Statement of changes in Equity for the year then ended, and notes to the Financial Statements summary of significant accounting policies and other explanatory information dealt with in this report are in agreement with the books of accounts.
 - d) In our opinion, the aforesaid Financial Statements comply with the Accounting Standards specified under Section 133 of the Act, read with of the Companies (Indian Accounting Standards) Rules, 2015.
 - e) On the basis of the written representations received from the directors as on 31st March, 2025 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2025 from being appointed as a director in terms of Section 164 (2) of the Act.

- f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure 3"
- g) With respect to the other matters to be included in Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations on its financial position in its Ind AS financial statements to the Ind AS financial statements, if any.
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

3.

- a) The Management has represented that, to the best of its knowledge and belief, other than as disclosed in the notes to accounts, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the company ("ultimate beneficiary") or provide any guarantee, security or the like on behalf of the ultimate beneficiaries;
- b) The Management has represented that, to the best of its knowledge and belief, other than as disclosed in the notes to accounts, no funds have been received by the company from any person(s) or entity(ies), including foreign entities("Funding Parties") with the understanding, whether recorded in writing or otherwise, that the intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the company("ultimate beneficiary") or provide any guarantee, security or the like on behalf of the ultimate beneficiaries; and
- c) Based on such audit procedures that we have considered reasonable and appropriate in the circumstances; nothing has come to our notice that has caused us to believe that the representations under sub clause (1) and (2) contain any material mis-statement.

4. The company has not declared or paid any dividend during the year.

5. As per information and explanations given and based on our examination, which include test checks, the Company has used accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all the transactions recorded in the software. Further, during the course of our audit we did not come

across any instance of audit trail feature being tampered with, and the audit trail has been preserved by the Company as per the statutory requirements for record retention.

"ANNEXURE 3" to the Independent Auditor's Report of even date on the Financial Statements of Hardoi Highways Private Limited for the year ended March 31st, 2025.

Report on the Internal Financial Controls under Clause (I) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Hardoi Highways Private Limited as of March 31, 2025 in conjunction with our audit of the Financial Statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls.

The Company's management is responsible for establishing and maintaining internal financial controls based on these responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Financial Statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Financial Statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- (1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Financial Statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the Financial Statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2025.

Hathras Highways Private Limited

CIN: U45203DL2022PTC397232

1. Notes Forming Part of the Financial Statements

Company Information

Hathras Highways Private Limited (the company) is domicile and incorporated in India and is wholly owned subsidiary company of PNC Infraholdings Limited. The company is engaged in infrastructure development of "Rehabilitation & Upgradation Four Lanning of NH 530B from Gaju Village (Design km. 32.982, Mathura Aligarh District Boundary) to Devinagar Bypass (End) (Existing Km.208.000 of SH33 (NH-530B)/Design Km.66.000) (Design Length=33.018 Km) in the State of Uttar Pradesh on HAM Mode.

1. Basis of Preparation

The financial statements have been prepared to comply in all material aspects with Indian accounting standards (Ind AS) notified under sec 133 of the companies act 2013 (the Act) read with Companies (Indian accounting standard) Rules, 2015 and other relevant provision of the Act and rules framed thereunder.

The Financial statements have been prepared on a historical cost basis except for certain financial assets & Liabilities measured at fair value.

The financial statements are presented in Indian rupees (INR) with value rounded off to the nearest lakhs with two decimals, thereof, accept otherwise indicated.

2. Significant Accounting policies adopted by company in preparation of financial statements

2.1 Property, Plant and Equipment

Subsequent to initial recognition, property, plant and equipment are stated at cost net of accumulated depreciation and accumulated impairment losses, if any. Such cost includes the cost of replacing part of the plant and equipment and borrowing costs for long-term construction projects if the recognition criteria are met. When significant parts of plant and equipment are required to be replaced at intervals, the company depreciates them separately based on their specific useful lives. The carrying amount of the replace part accounted for as a separate asset previously is derecognized. Likewise, when a major inspection is performed, its cost is recognized in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance cost are recognized in the statement of profit and loss when incurred. The present value of the expected cost for the decommissioning of an asset after its use is included in the cost of the respective asset if the recognition criteria for a provision are met.

Depreciation on property, plant and equipment is provided on written down value basis as per the rate derived on the basis of useful life and method prescribed under schedule-II of the companies Act, 2013.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each reporting date and adjusted prospectively, if appropriate.

Impairment of Non-Financial Assets

The carrying amounts of other non-financial assets are reviewed at each balance sheet date if there is any indication of impairment based on internal /external factors. An asset is treated as impaired when the carrying amount exceeds its recoverable value. The recoverable amount is the greater of the asset's net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to the present value using a per-tax discount rate that reflects current market assessment of the time value of money and risks specific to the assets. An impairment loss is charged to the statement of profit and loss in the year in which an asset is identified as impaired. After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life. The impairment loss recognized in prior accounting periods is reversed by crediting to the statement of profit and loss if there has been a change in the estimate of recoverable amount.

[Handwritten signatures in blue ink]

2.2 Service Concession Agreements

The Company constructs & upgrades infrastructure (construction or upgrade services) used to provide a public service and operates and maintains that infrastructure (operation services) for a specified period of time.

These arrangements may include Infrastructure used in a public-to-private service concession arrangement for its entire useful life. Under Appendix C to Ind AS 115 – Service Concession Arrangements, these arrangements are accounted for based on the nature of the consideration. The Financial asset model is used to the extent that the operator has an unconditional contractual right to receive cash or another financial asset from or at the direction of the grantor for the construction services. If the company performs more than one service (i.e. construction or upgrade services and operation services) under a single contract or arrangement, consideration received or receivable is allocated by reference to the relative fair values of the services delivered, when the amounts are separately identifiable.

In the financial asset model, the amount due from the grantor meets the identification of the receivable which is measured at fair value. It is subsequently measured at amortized cost. The amount initially recognized plus cumulative interest on that amount is calculated using the effective interest method. Any asset carried under concession agreements is derecognized on disposal or when no future economic benefits are expected from its future use or disposal or when contractual right to the financial assets expires.

Revenue Related to SCA:

Revenue related to construction under a service concession arrangement is recognized based on the stage of completion of the work performed.

2.3 Revenue Recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow and the revenue can be reliably measured. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the government except to the extent stated otherwise.

The company has recognized Finance Income on the outstanding balance of trade receivables as a part of revenue from operations.

2.4 Interest Income

For all debt instruments measured either at amortized cost or at fair value through other comprehensive income, interest income is recorded using the effective interest rate (EIR). Interest income is included in finance income in the statement of profit and loss.

2.5 Taxes on Income

Current Tax

The income tax expenses or credit for the period is the tax payable only current period's taxable income based on the applicable income tax rate adjusted by changes and deferred tax assets and liabilities attributable to temporary differences and to unused tax losses. The current tax charge is calculated on the basis of the tax laws enacted or substantially enacted at the end of the reporting period.

Deferred Tax

Deferred tax is provided in full, using the balance sheet approach on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial statements at the reporting date. Deferred tax is determined using tax rates that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred tax assets is realized or the deferred tax liabilities is settled.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized. Unrecognized deferred tax assets are re-assessed at each reporting date and are recognized to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Handwritten signatures in blue ink, including a large stylized signature and a smaller one with the initials "aw".

Deferred tax relating to items recognized outside profit or loss is recognized outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognized in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Minimum alternative tax (MAT) credit is recognized as deferred tax asset only when and to the extent there is convincing evidence that the company will pay normal income tax during the specified period. Such asset is reviewed at each balance sheet date and the carrying amount of MAT credit asset is written down to the extent there is no longer the convincing evidence to the effect that the company will pay normal income tax during the specified period.

2.6 Foreign Currency Transactions

The company's financial statements are presented in INR which is also the company's functional currency. Foreign currency transactions are recorded on initial recognition in the functional currency. Using the exchange rate at the date of the transaction. At each balance sheet date, foreign currency monetary items are reported using the closing exchange rate. Exchange differences that arise on settlement of monetary items or on reporting at each balance sheet date of the company's monetary items at the closing rate are recognized as income or expenses in the period in which they arise. Non-monetary items which are carried at historical cost denominated in a foreign currency are reported using the exchange rate at the date of transaction.

2.7 Cash and Cash Equivalents

Cash and cash equivalents comprise cash at bank and on hand and other short term highly liquid investments with an original maturity of three months or less that are readily convertible to a known amount of cash and are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows and cash equivalents consist of cash and short-term deposits, as defined above. Net of outstanding bank overdrafts as they are considered an integral part of the company's cash management.

2.8 Earnings per share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting preference dividends and attributable taxes) by the weighted average number of equity shares outstanding during the period. For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares except when the results would be antidilutive.

2.9 Provisions, Contingent Liabilities and Contingent Assets

Provisions

Provisions are recognized when the company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

The expense relating to a provision is presented in the statement of profit and loss.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

Provisions are reviewed at each reporting date and adjusted to reflect the current best estimates. If it is no longer probable that an outflow of resources embodying economic benefits will be required to settle the obligation, the provision is reversed.

Contingent Liabilities and Contingent assets

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the company or a present obligation which is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability

A handwritten signature in blue ink, consisting of stylized cursive letters.

also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. Information on contingent liabilities is disclosed in the notes to the financial statements, unless the possibility of an outflow of resources embodying economic benefits is remote.

A contingent asset is a possible asset that arises from the past events and whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events not within the control of the company. Contingent assets are not recognized but are disclosed in the financial statements.

Provisions, contingent liabilities, contingent assets are reviewed at each reporting date.

2.10 Sales/ value added taxes paid on acquisition of assets or on incurring expenses

When the tax incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case, the tax paid is recognized as part of the cost of acquisition of the asset or as part of the expense item, as applicable. When receivables and payables are stated with the amount of tax included. The net amount of tax recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the balance sheet.

2.11 Borrowing Costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

2.12 Employee benefits

Provident Fund: The contribution to provident fund is in the nature of defined contribution plan. The Company makes contribution to statutory provident fund in accordance with the Employees Provident Fund and Miscellaneous Provisions Act, 1952. The contribution paid or payable is recognized as an expense in the period in which services are rendered.

Gratuity (Funded): Gratuity is in the nature of defined benefit plan. The cost is determined using the projected unit credit method with actuarial valuation being carried at cash at each Balance Sheet date by an independent actuary. The retirement benefits obligation recognized in the Balance Sheet represent the present value of defined benefit obligation as adjusted for recognized past service cost. Actuarial gains and losses are recognized in full in the other comprehensive income for the period in which they occur.

All employee benefits payable wholly within twelve months rendering services are classified as short term employee benefits. Benefits such as salaries, wages, short-term compensated absences, performance incentives etc., and the expected cost of bonus, ex-gratia are recognized during the period in which the employee renders related service.

Payments to defined contribution retirement benefit plans are recognized as an expense when employees have rendered the service entitling them to the contribution.

2.13 Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financials Asset

Initial Recognition and Measurement

Financial assets are recognized when the company becomes a party to the contractual provisions of the instrument. The company determines the classification of its financial assets at initial recognition. All financial assets are recognized initially at fair value plus transaction costs that are directly attributable to the acquisition of the financial asset except for financial assets classified as fair value through profit or loss.

Three handwritten signatures in blue ink, written over the bottom right portion of the stamp and extending towards the right margin of the page.

Subsequent Measurement

For purposes of subsequent measurement, financial assets are classified in three categories:

- (i) Financial Asset at amortized cost
- (ii) Financial Asset at Fair Value through OCI (FVTOCI)
- (iii) Financial Asset at Fair value through P&L (FVTPL)

The subsequent measurement of financial asset depends on their classification. The classification depends on the company's business model for managing the financial assets and the contractual terms of the cash flows.

Financial Asset at Amortized Cost

Financial Asset' is measured at the amortized cost if both the following conditions are met:

- (a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- (b) Cash flows represent solely for repayment of principal and interest.

After initial measurement, such financial assets are subsequently measured at amortized cost using the effective interest rate (EIR) method. Amortized cost is calculated by taking into account any discount or premium on acquisition of asset and fees or costs that are an integral part of the EIR. Income from these financial assets is included in interest income using the effective interest rate method.

Financial Asset at Fair Value through OCI (FVTOCI)

'Financial Asset' is classified as at the FVTOCI if both of the following criteria are met:

- (a) The objective of the business model is achieved by collecting contractual cash flows and selling the financial assets, and
- (b) The asset's contractual cash flows represent solely for repayment of principal and interest. Financial Asset included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the other comprehensive income (OCI).

Financial Asset at Fair Value through P&L

FVTPL is a residual category for Financial Assets. Any financial asset, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL.

In addition, the company may elect to designate a Financial asset, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch').

Equity Instruments

All equity investments in scope of Ind AS 109 are measured at fair value. The company may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The Company makes such election on an instrument by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the group decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI.

De-recognition of Financial asset

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognized when:

- i) The rights to receive cash flows from the asset have expired, or
- ii) The company has transferred its rights to receive cash flows from the asset
- iii) The company retains the contractual rights to received cash flows from the financial asset but assumes a contractual obligation to pay cash flows to one or more recipients.

Where the company has transferred the asset, the company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial assets. In such cases, the financial asset is derecognized. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognized.

Three distinct handwritten signatures in blue ink, positioned horizontally to the right of the stamp.

Where the entity has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of financial assets, the financial asset is derecognized if the company has not retained control of the asset. Where the company has retained control of the financial asset, the asset is continued to be recognized to the extent of continuing involvement in the financial asset.

Impairment of Financial Assets

In per Ind AS 109, the company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- (a) Financial assets that are measured at amortized cost e.g., loans, debt securities, deposits, trade receivables and bank balance
- (b) Financial assets that are measured as at FVTOCI
- (c) Lease receivables under Ind AS 17
- (d) Trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 115 (referred to as 'Service Concession receivables' in these illustrative financial statements)
- (e) Loan commitments which are not measured as at FVTPL
- (f) Financial guarantee contracts which are not measured as at FVTPL

For recognition of impairment loss of financial assets and risk exposure, the Company determines whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. If credit risk has increased significantly, lifetime ECL is used.

In a subsequent period, if credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the company reverts to recognizing impairment loss allowance based on 12-month ECL.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument.

Financial Liabilities

Initial Recognition and Measurement

Financial liabilities are recognized when the company becomes a party to the contractual provisions of the instrument. The company determines the classification of financial liability at initial recognition. All financial liabilities are recognized initially at fair value plus transaction costs that are directly attributable to the acquisition of the financial liability except for financial liabilities classified as fair value through profit or loss.

Subsequent Measurement

For the purpose of subsequent measurement, financial liabilities are classified in two categories:

Financial Liabilities at Amortized Cost

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the EIR method. Gains and losses are recognized in the statement of profit or loss when the liabilities are derecognized as well as through the EIR amortization process. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the statement of profit and loss.

Financial Liabilities Measured at Fair Value through Profit or Loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. Financial liabilities at fair value through profit or loss are carried in the statement of financial position at fair value with changes in fair value recognized in finance income or finance costs in the statement of profit and loss.

Three handwritten signatures in blue ink, written over the bottom right portion of the stamp and extending to the right margin.

De-recognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the statement of profit or loss.

Fair Value Measurement

The Company measures financial instruments at fair value at each reporting date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or most advantageous market must be accessible to the company.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The entity uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1: Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2: Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3: Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For the purpose of fair value disclosures, the Company has determined classes of assets & liabilities on the basis of the nature, characteristics and the risks of the asset or liability and the level of the fair value hierarchy as explained above.

2.14 Government Grants

Government grants (except those existing on transition date) are recognized where there is reasonable assurance that the grant will be received and all attached conditions will be complied with. When the grant relates to an expense item, it is recognized as income on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed. When the grant relates to an asset, it is recognized as income in equal amounts over the expected useful life of the related asset.

When the company receives grants of non-monetary assets. The asset and the grant are recorded at fair value amounts and released to the statement of profit or loss over the expected useful life in a pattern of consumption of the benefit of the underlying asset by equal annual installments.

3. Significant Estimates, Judgments and Assumptions

The preparation of financial statements requires management to exercise judgment in applying the company's accounting policies. It also requires the use of estimated and assumptions that affect the reported amounts of assets, liabilities, income and expenses and the accompanying disclosures including disclosure of contingent liabilities. Actual results may differ from these estimates.

Three handwritten signatures in blue ink, likely representing the company's management or auditors, positioned to the right of the Chartered Accountants stamp.

Estimates and underlying assumptions are reviewed on an ongoing basis, with revisions recognized in the period in which the estimates are revised and in any future periods affected.

3.1 Contingencies and Commitments

In the normal course of business, contingent liabilities may arise from litigation and other claims against the company. Potential liabilities that have a low probability of crystalizing or are very difficult to quantify reliably, are treated as contingent liabilities. Such liabilities are disclosed in the notes, if any, but are not provided for in the financial statements. There can be no assurance regarding the final outcome of these legal proceedings.

3.2 Impairment Testing

- i. Judgment is also required in evaluating the likelihood of collection of customer debt after revenue has been recognized. This evaluation requires estimates to be made, including the level of provision to be made for amounts with uncertain recovery profiles. Provisions are based on historical trends in the percentage of debts which are not recovered, or on more details reviews of individually significant balances.
- ii. Determining whether the carrying amount of these assets has any indication of impairment also requires judgment. If an indication of impairment is identified, further judgment is required to assess whether the carrying amount can be supported by the net present value of future cash flows forecast to be derived from the asset. This forecast involves cash flow projections and selecting the appropriate discount rate.

3.3 Taxes

- a. The company's tax charge is the sum of the total current and deferred tax charges. The calculation of the company's total tax charge necessarily involves a degree of estimation and judgment in respect of certain items whose tax treatment cannot be finally determined until resolution has been reached with the relevant tax authority or, as appropriate, through a formal legal process.
- b. Accruals for tax contingencies require management to make judgments and estimates in relation to tax audit issues and exposures.
- c. The recognition of deferred tax assets is based upon whether it is more likely than not that sufficient and suitable taxable profits will be available in the future against which the reversal of temporary differences can be deducted. Where the temporary differences are related to losses, the availability of the losses to offset against forecast taxable profits is also considered. Recognition therefore involves judgment regarding the future financial performance of the particular legal entity or Tax Company in which the deferred tax asset has been recognized.

3.4 Fair Value Measurement

The fair value of financial instruments that are not traded in an active market is determined using valuation techniques. In applying the valuation techniques, management makes maximum use of market inputs and uses estimates and assumptions that are, as far as possible, consistent with observable data that market participants would use in pricing the instrument. Where applicable data is not observable, management uses its best estimate about the assumptions that market participants would make. These estimates may vary from the actual prices that would be achieved in an arm's length transaction at the reporting date. For details of the key assumptions (Refer note-26).

Three handwritten signatures in blue ink, written horizontally across the page.

(i) Fair Value Hierarchy

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are measured at amortised cost and for which fair values are disclosed in financial statements. To provide an indication about the reliability of inputs used in determining fair values, the group has classified its financial instruments into three levels prescribed under the accounting standards.

The following table provides the fair value measurement hierarchy of Company's asset and liabilities, grouped into Level 1 to Level 3 as described below :-

Level 1: Quoted (unadjusted) market prices in active markets for identical assets or liabilities.

Level 2: Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.

Level 3: Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

(₹ in Lakhs)

Particulars	Carrying Value March 31, 2025	Fair Value Measurement using		
		Quoted price in Active Market (Level 1)	Significant observable inputs (Level 2)	Significant unobservable inputs (Level 3)

Total	29,130.47	-	29,130.47	-

(II) Valuation techniques used to determine Fair value

The Company maintains policies and procedures to value financial assets or financial liabilities using the best and most relevant data available. The fair values of the financial assets and liabilities are included at the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Specific valuation technique used to value financial instrument includes:

> the fair value of financial assets and liabilities at amortised cost is determined using discounted cash flow analysis

The following method and assumptions are used to estimate fair values:

The Carrying amounts of trade payables, short term borrowings, cash and cash equivalents, short term deposits/retentions, expenses payable etc. are considered to be their fair value, due to their short term nature.

Long-term fixed-rate and variable-rate receivables / borrowings are evaluated by the Company based on parameters such as interest rates, specific country risk factors, credit risk and other risk characteristics. For borrowing fair value is determined by using the discounted cash flow (DCF) method using discount rate that reflects the issuer's borrowings rate. Risk of non-performance for the company is considered to be insignificant in valuation.

The fair value of trade receivables, security deposits and retentions are evaluated on parameters such as interest rate and other risk factors. Fair value is being determined by using the discounted cash flow (DCF)

Financial assets and liabilities measured at fair value and the carrying amount is the fair value.

[Handwritten signatures and a circular stamp]

The circular stamp is from **Chandra Gupta & Associates**, Chartered Accountants, New Delhi.

Hathras Highways Private Limited

CIN: U45203DL2022PTC397232

Notes to Financial Statements for the Year Ended March 31, 2025

Note 27 : FINANCIAL RISK MANAGEMENT

The Company's principal financial liabilities, other than derivatives, comprise borrowings, trade and other payables. The main purpose of these financial liabilities is to manage finances for the Company's activities are exposed to **market risk, credit risk and liquidity risk.**

I. Market Risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market prices comprise three types of risk: currency rate risk, interest rate risk and other price risks, such as equity price risk and commodity price risk. Financial instruments affected by market risk include loans and borrowings, deposits, investments, and derivative financial instruments.

(a) Interest Rate Risk

Interest rate risk is company's cash flow and profit on account of movement in market interest rates. For the company interest risk arises mainly from interest bearing borrowings which are at floating rates. To mitigate interest rate risk, the company closely monitors market risk.

(i) Interest Risk Exposure

(₹ in Lakhs)

Particulars	As at March 31, 2025	As at March 31, 2024
Variable Rate Borrowings	38,436.49	22,823.72

(ii) Interest Rate Sensitivity

The following table demonstrates the sensitivity to a reasonably possible change in interest rate on that portion of borrowing affected. With all other variable held constant, the company's profit before tax is affected through the impact of change in interest rate of borrowing as follows-

(i) Interest Risk Exposure

(₹ in Lakhs)

Particulars	Increase/decrease in basis points	Effect on profit before tax
March 31, 2025	+50/-50	-192.18/192.18
March 31, 2024	+50/-50	-114.12/114.12

(b) Foreign Currency Risk

The Company does not operates internationally and as the Company has not obtained any foreign currency loans and also doesn't have any foreign currency trade payables and foreign receivables outstanding therefore, the company is not exposed to any foreign exchange risk.

(c) Price Risk

The company exposure to price risk arises from investments in various schemes of mutual funds. These investments are actively traded in the market and are held for short period of time.

[Handwritten signatures]

II. Credit Risk

Credit risk arises from the possibility that the counterparty will default on its contractual obligations resulting in financial loss to the company. To manage this, the Company periodically assesses the financial reliability of customers, taking into account the financial conditions, current economic trends, and analysis of historical bad debts and ageing of accounts receivable.

The company has only one trade receivables that a company has are against the the grant to be recieved, which is a government authority ,therefore company is not exposed to any credit risk. Credit risk on cash and cash equivalents is limited as we generally invest in deposits with banks and financial institutions with high credit ratings assigned by international and domestic credit rating agencies.

III. Liquidity Risk

Liquidity risk is defined as the risk that company will not be able to settle or meet its obligation on time or at a reasonable price. The Company's objective is to at all times maintain The table below provides details regarding the remaining contractual maturities of financial liabilities at the reporting date based on contractual undiscounted payments:

Note 28 .1 : Gurantees- Executed in favour of Sr. Divisional Finance Manager, North Central Railway (NCR), Prayagraj.(P/Y Rs. 5.00 Lakh)

Note 29 : Capital Management

The primary objective of the Company's Capital Management is to maximize the shareholder value and also maintain an optimal capital structure to reduce cost of capital. In order to manage the capital structure, the Company may adjust the amount of dividend paid to shareholders, return on capital to shareholders, issue new shares or sell assets to reduce debts.

The Company manages its capital structure and makes adjustment in light of changes in economic condition and the requirements of the financial covenants, if any. The Company monitors capital using a gearing ratio, which is net debt divided by total capital plus debt.
